

EXERCISE – 1

Question

Execute and display the results of the following commands in Kali Linux Operating System:

1. rm command
2. users command
3. tree command

Aim

To execute and display the results of the rm, users, and tree commands in Kali Linux.

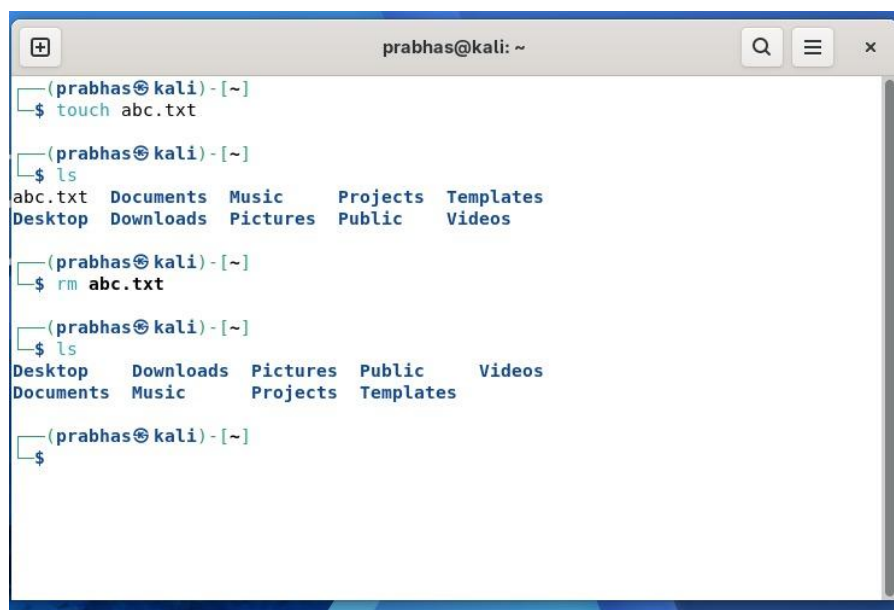

1. RM COMMAND

Command:

rm sample.txt

Use:

The rm command is used to **remove or delete files and directories**.

A terminal window titled 'prabhas@kali: ~' showing the execution of the rm command. The user first creates a file 'abc.txt' using 'touch abc.txt'. Then, they run 'ls' which shows a directory listing including 'abc.txt'. Finally, they run 'rm abc.txt' and run 'ls' again, which shows the directory listing without 'abc.txt'.

```
(prabhas@kali) - [~]
$ touch abc.txt

(prabhas@kali) - [~]
$ ls
abc.txt  Documents  Music      Projects  Templates
Desktop  Downloads  Pictures   Public    Videos

(prabhas@kali) - [~]
$ rm abc.txt

(prabhas@kali) - [~]
$ ls
Desktop  Downloads  Pictures   Public    Videos
Documents Music      Projects   Templates

(prabhas@kali) - [~]
$
```

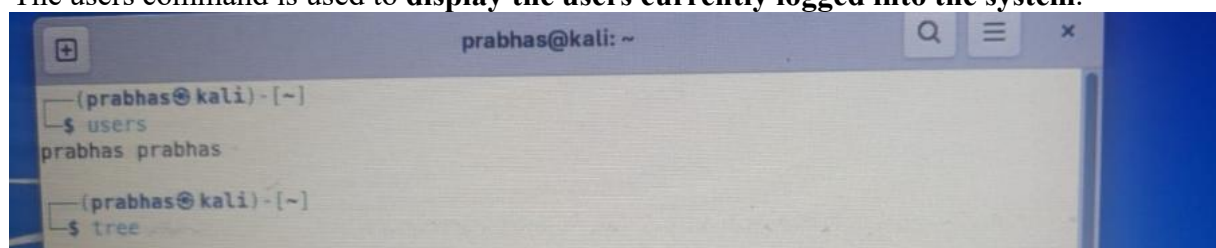

2. USERS COMMAND

Command:

users

Use:

The users command is used to **display the users currently logged into the system**.

A terminal window titled 'prabhas@kali: ~' showing the execution of the users and tree commands. The user runs 'users' which displays 'prabhas prabhas'. Then, they run 'tree' which starts displaying a directory tree structure.

```
(prabhas@kali) - [~]
$ users
prabhas prabhas

(prabhas@kali) - [~]
$ tree
```

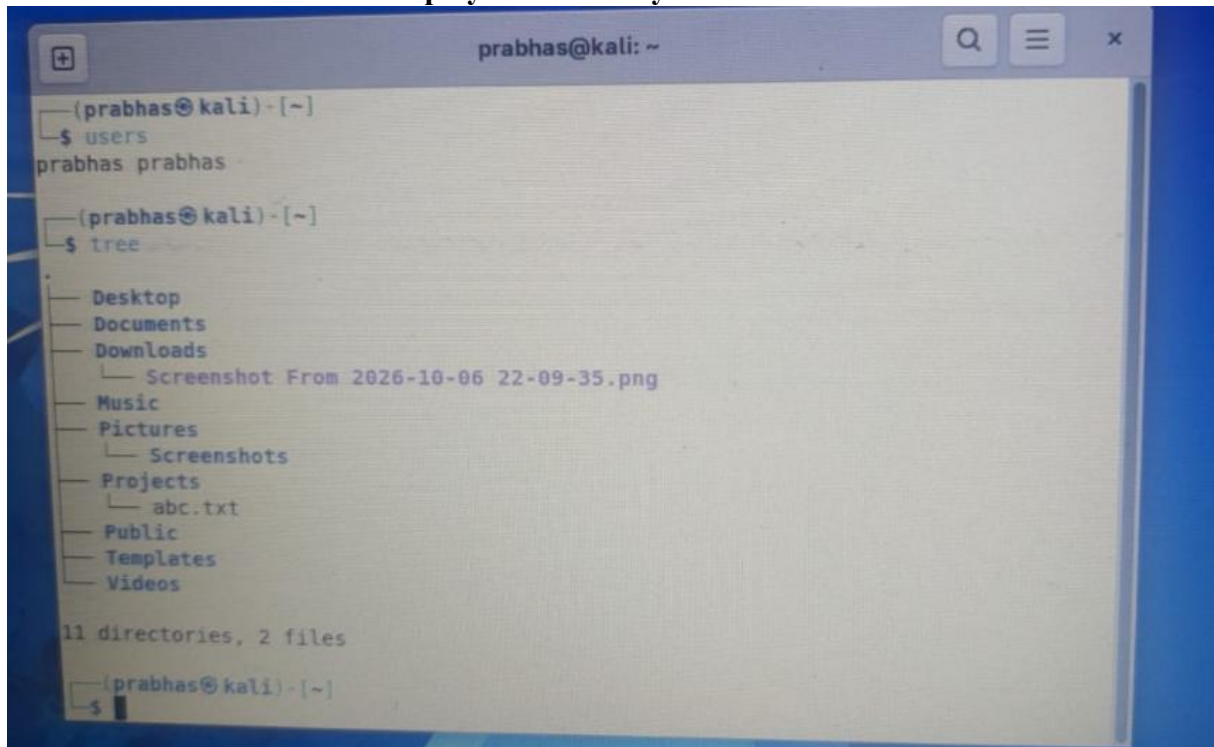

3. TREE COMMAND

Command:

tree

Use:

The tree command is used to **display the directory and file structure in a tree-like format.**

A screenshot of a terminal window titled 'prabhas@kali: ~'. The terminal shows the execution of the 'users' command, which outputs 'prabhas prabhas'. Then, the 'tree' command is executed, displaying a tree-like structure of the user's home directory. The output lists directories: Desktop, Documents, Downloads, Music, Pictures, Projects, Public, Templates, and Videos. Under 'Downloads', there is a file 'Screenshot From 2026-10-06 22-09-35.png'. Under 'Projects', there is a file 'abc.txt'. At the bottom, it says '11 directories, 2 files'. The prompt returns to '(prabhas@kali) - [~]'.

Result

Thus, the rm, users, and tree commands were successfully executed in Kali Linux and their results were displayed.
